

# WHAT A YEAR!

*From politics at its most surreal;  
To tragedy at its deepest...*

*From economics at their most exuberant;  
To economics at their most irrational...*

*From unemployment at its most unexpected;  
To employment at its most rewarding...*

*From confidence at its highest;  
To confidence at its lowest...*

*And back again.  
And vice versa.*

*But always:*

*Joy.  
Each other.  
The promise of another day;  
The satisfaction of a day well lived.*

*And friends.  
And family.*

*And tomorrow.*

*Best regards of the season.*
